

NJPAC presents tonight's
Prelude Artists...

Steve Girardi Project

Composer/guitarist Steve Girardi has been performing his original music in the New York metropolitan area for over 2 decades. His unique sound challenges the traditional boundaries of contemporary jazz, and his critically acclaimed talents on both the acoustic and electric guitar result in a rich ethereal fusion of musical genres. His 2002 debut CD, *Within Inside*, received rave reviews and is being followed by his new 2008 release titled *Blue Sky with Tears*. He is the founder and director of the Summit Music Studio, located in Summit, NJ.
